Blend Cycle Library

The Stealth's preprogrammed blend cycles will handle nearly every blending need—from milkshakes to margaritas to the smoothest of smoothies.
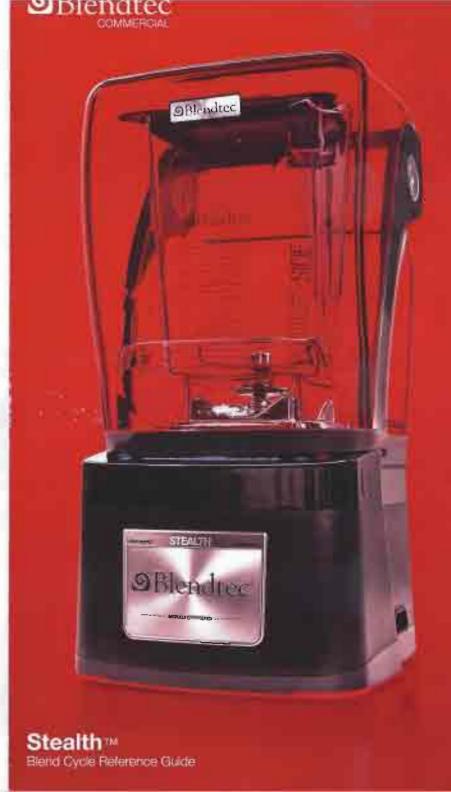

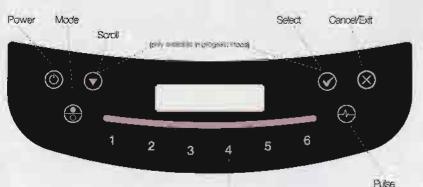

#	Cycle	Time		#	Cycle	Time
1	Salsa	7 seconds		15	Large Milkshake 3	35 seconds
2	Batter	23 seconds		16	Small Smoothie with Fresh Fruit	20 seconds
3	Whole Juice	50 seconds		17	Medium Smoothie 1	19 seconds
4	Soup	90 seconds		18	Medium Smoothie 2	23 seconds
5	Ice Cream	45 seconds		19	Medium Smoothie 3	23 seconds
6	Small Margarita / Ice Cappuccino	14 seconds		20	Medium Smoothie 4	25 seconds
7	Large Ice Cappuccino	20 seconds		21	Large Smoothie 1	28 seconds
8	Ice Crush / Milkshake	35 seconds		22	Large Smoothie 2	32 seconds
9	Small Slushy / Milkshake	12 seconds		23	Large Smoothie 3	36 seconds
10	Small Milkshake	18 seconds		24	Large Smoothie 4	40 seconds
11	Granita / Medium Milkshake	14 seconds		25	Large Smoothie 5	50 seconds
12	Milkshake with Frozen Fruit	18 seconds		26	Large Smoothie 6	40 seconds
13	Large Milkshake 1	24 seconds		27	Ultrathick Smoothie 1	32 seconds
14	Large Milkshake 2	27 seconds		28	Ultrathick Smoothie 2	59 seconds

#	Cycle	Time		#	Function	
29	Ultrathick Smoothie 3	67 seconds		37	Pulse at Speed 1	Pulse
30	Ultrathick Smoothie 4	23 seconds		38	Pulse at Speed 2	Pulse
31	50 Seconds at Speed 1	50 seconds		39	Pulse at Speed 3	Pulse
32	50 Seconds at Speed 2	50 seconds		40	Pulse at Speed 5	Pulse
33	50 Seconds at Speed 3	50 seconds		41	Pulse at Speed 7	Pulse
34	50 Seconds at Speed 5	50 seconds		42	Pulse at Speed 9	Pulse
35	50 Seconds at Speed 7	50 seconds		43	Disable Button	Disable
36	50 Seconds at Speed 9	50 seconds				

Blend Wizard™ Web App

Stealth Button Guide
(in programming mode)

The Blendtec Stealth incorporates the latest technology available in today's commercial blenders—not the least of which is the state-of-the-art control surface that allows you to manage and fine-tune your blender's programming.

Selecting a Profile
To select a profile, follow the steps below:
- Enter programming mode by touching and holding ⊗ for 3 seconds.
- Touch ⊘ to select Profiles.
    - To choose 1 of the standard profiles preprogrammed on the machine, select Standard Profiles by touching ⊘.
    - To choose a custom profile designed via the Blend Wizard, touch ⊙ to scroll to Custom Profiles and then touch ⊘.
- After selecting the standard or custom profile category, touch ⊙ to scroll through the profiles in the category, and touch ⊘ to select the desired profile.
- The LED screen will list the selected profile and the question "Make this the active profile?" Touch ⊘ to load the blender with the profile, or touch ⊗ to cancel and return to the previous menu.

Changing the Programmed Cycle Buttons
After loading the desired profile, complete the following steps to change 1 of the blend cycles in the profile:
- Enter programming mode by touching and holding ⊗ for 3 seconds.
- Touch ⊙ to scroll to the second menu item (Blend Cycles), and then touch ⊘.
- Select the first or second option. The first option (Standard Blend Cycles) lists the cycles preprogrammed on the blender. The second option (Custom Blend Cycles) lists the custom cycles that can be designed via the Blend Wizard and exported to the blender. Select the first or second option by touching ⊘.

- Touch ⊙ to scroll to the desired cycle, and then touch ⊘.
- The LED screen will then prompt you to choose which number on the control surface you want to assign the cycle to. Touch the number, and then touch ⊘ to program the button with the selected cycle.

Creating Profiles and Cycles via the Blend Wizard™
In addition to using the profiles and cycles preprogrammed on your blender, you can use the Blend Wizard to create custom profiles that include current Blendtec cycles and/or custom cycles. For instructions on using the Blend Wizard to easily develop custom profiles and cycles, visit **blendtec.com/commercial/program.**

Importing Custom Profiles and Cycles to the Blender
Once you have completed the Blend Wizard instructions and transferred a custom profile file to a USB flash drive, follow the steps below to import the file to the blender.

- Use a Phillips screwdriver to remove the USB cover at the top of the right side of the blender.
- Insert the USB flash drive into the blender's USB port.
- If the blender is in manual or automatic operation mode, the USB drive menu will automatically load on the LED screen. If the LED screen is already in programming mode, go to the main menu, touch ⊙ to scroll to menu item 5 (USB Flash Drive), and then touch ⊘.
- From the USB flash drive menu, touch ⊘ to select option 1 (Import Profile).
- Touch ⊙ to scroll through the items on the flash drive and locate the desired custom profile file (by default named stealth.bpf). (Note: Items with a + sign next to them are folders; if the custom profile file is in a folder, touch ⊘ to open the folder and see the files in the folder.) Select the desired file by touching ⊘.
- Touch ⊘ to start the import process. After the file has been imported, the custom profile will be automatically loaded as the active profile on the blender.
- Remove the USB drive from the blender, and secure the USB cover on the USB port with a Phillips Screwdriver.

For detailed operation instructions, refer to Section 5 of the Stealth Owner's manual.

Preloaded Blending Profiles

Smoothie Profile
1	Small Smoothie with Fresh Fruit	20 seconds
2	Medium Smoothie 4	25 seconds
3	Granita / Medium Milkshake	14 seconds
4	Medium Smoothie 3	23 seconds
5	Large Smoothie 4	40 seconds
6	50 Seconds at Speed 7	50 seconds
⏦	Pulse at Speed 7	Pulse

Multipurpose Profile
1	Small Milkshake	18 seconds
2	Granita / Medium Milkshake	14 seconds
3	Small Margarita / Ice Cappuccino	14 seconds
4	Medium Smoothie 4	25 seconds
5	Large Smoothie 4	40 seconds
6	50 Seconds at Speed 7	50 seconds
⏦	Pulse at Speed 7	Pulse

Coffee Profile
1	Small Margarita / Ice Cappuccino	14 seconds
2	Large Ice Cappuccino	20 seconds
3	Small Slushy / Milkshake	12 seconds
4	Granita / Medium Milkshake	14 seconds
5	Large Smoothie 2	32 seconds
6	50 Seconds at Speed 7	50 seconds
⏦	Pulse at Speed 7	Pulse

Milkshake Profile
1	Small Milkshake	18 seconds
2	Granita / Medium Milkshake	14 seconds
3	Milkshake with Frozen Fruit	18 seconds
4	Large Milkshake 1	24 seconds
5	Large Milkshake 2	27 seconds
6	Large Milkshake 3	35 seconds
⏦	Pulse at Speed 7	Pulse
